Important Ordering Notes

Video Display Mounting Solutions

Each VP6500 series video cart includes a standard mounting tray that is customized to securely hold a 20" Sony medical CRT video display. This standard CRT tray may be replaced with either the VP6520, VP6526, VP6527 or VP6529 display mounts.

All display mounts are sold separately but are pre-installed when possible, if ordered with a video cart. VP6527 and VP6529 primary arms are sold factory installed only.

Optional Accessories

Accessories may not be compatible with all models. Check the brochure description for compatibility. All accessories are sold separately but are pre-installed if ordered with a cart.

Ordering Multiple Cart Configurations

When ordering carts of different accessory and display-mount configurations, please specify the quantity and configuration of each type cart.
